

Max - I N V E R T E R

Samsung quality with Inverter electricity savings

- Samsung's Triple Protector ensures maximum reliability and durability
- Efficient Samsung Inverter technology reduces electricity consumption by as much as 40%, compared with conventional airconditioners
- Cooling/heating
- Anti-bacterial coating and full HD filter not only traps microscopic dust particles but also kills germs and deodorises
- 'Good Sleep II' mode automatically adjusts temperature and humidity to ensure a good night's sleep
- Auto changeover provides constant temperature regulation
- Eco-friendly R410A gas
- Backed by comprehensive nationwide Samsung sales and support

Triple Protector

Max - I N V E R T E R

Perfect climate control with Inverter economy

Samsung's new-generation Max Inverter airconditioner ensures cleaner, fresher air, along with Inverter technology that maintains consistent temperatures – whether cooling or heating – with minimum electricity consumption.

Samsung Inverter technology

Precise Inverter technology maintains pre-set temperature without switching compressor on and off, thus reducing electricity consumption. By as much as 40%, compared with conventional airconditioners.

Triple Protector

Designed for Africa, Samsung's Triple Protector protects 3 ways:

- 1) Anti-overload technology protects compressor during very hot weather.
- 2) Advanced digital controller protects against power fluctuations.
- 3) Anti-rust coating protects fins, ensuring long-lasting performance.

Smart Saver

Samsung Smart Saver technology operates the airconditioner automatically in the least amount of time necessary to cool the room, thus saving electricity.
